7. Next you will get an order summary:

The screenshot shows a web browser window with the URL <http://e5.onthehub.com/WrbStore/Checkout/OrderReceipt.aspx?wo=7e13b293-d93b-e011-9b3d-0030487d8897&wst=0>. The page title is "Software Center".

At the top, there are navigation links for "Messages", "Order", and "Receipt". A yellow notification box states: "Your order has been placed and a confirmation email will be sent to you shortly. You may wish to print this page for your records. Detailed information about all of your orders can always be found under Your Account."

The page is divided into two main columns:

- Order Summary:**
 - Order Date: 2011-08-12 1:08 PM (Eastern Daylight Time)
 - Order Number: [REDACTED]
- Order Information:**
 - Name: [REDACTED]
 - Email: [REDACTED]

Items: All prices are in US Dollars

Name	Quantity	Unit Price	Amount
1. Microsoft XNA Game Studio 4 (English) - Download Download Options	1	\$0.00	\$0.00

Below the item list, there are links for "Messages" and "Invoice PDF". The "Agreement Number" is 00000.

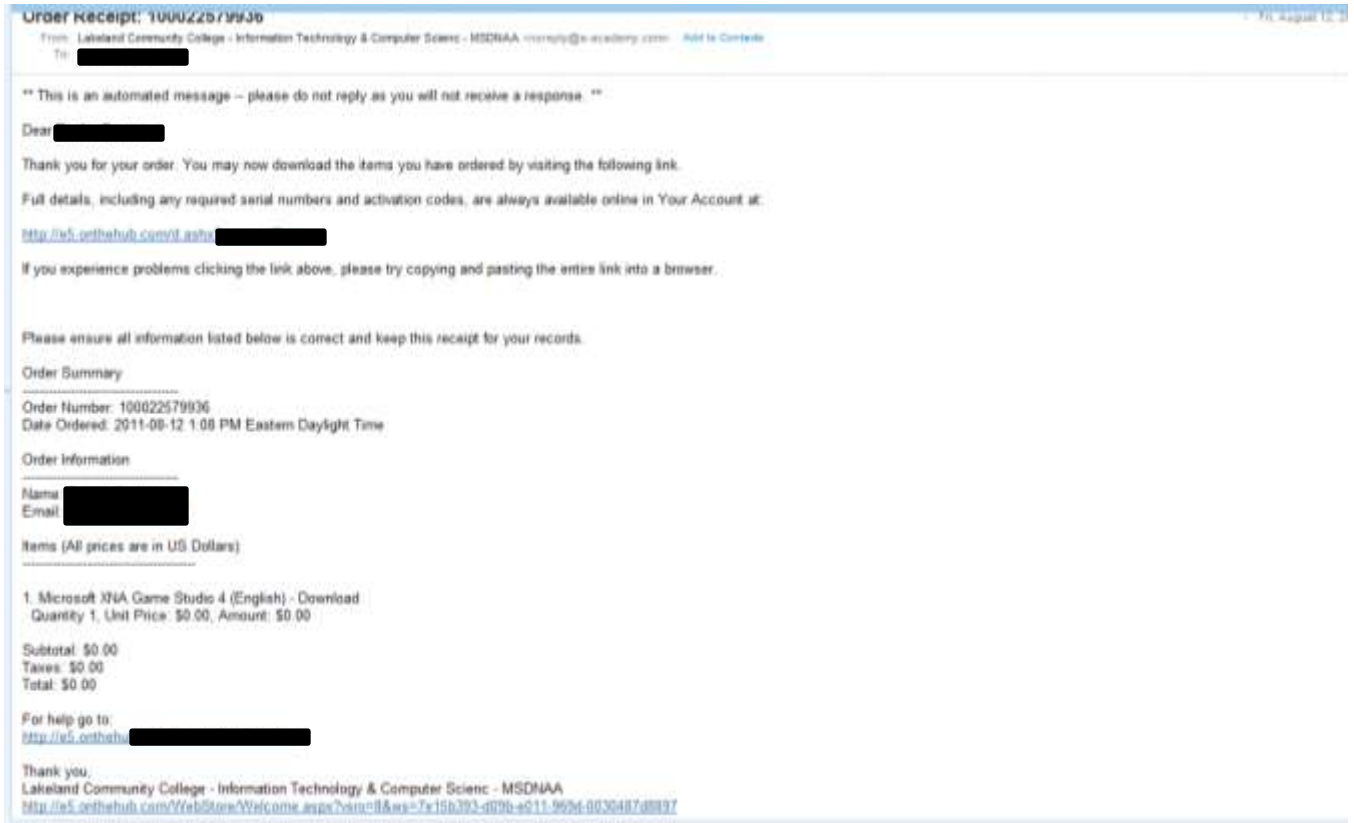

At the bottom right of the items section, the following totals are shown:

Subtotal:	\$0.00
Taxes:	\$0.00
Total:	\$0.00

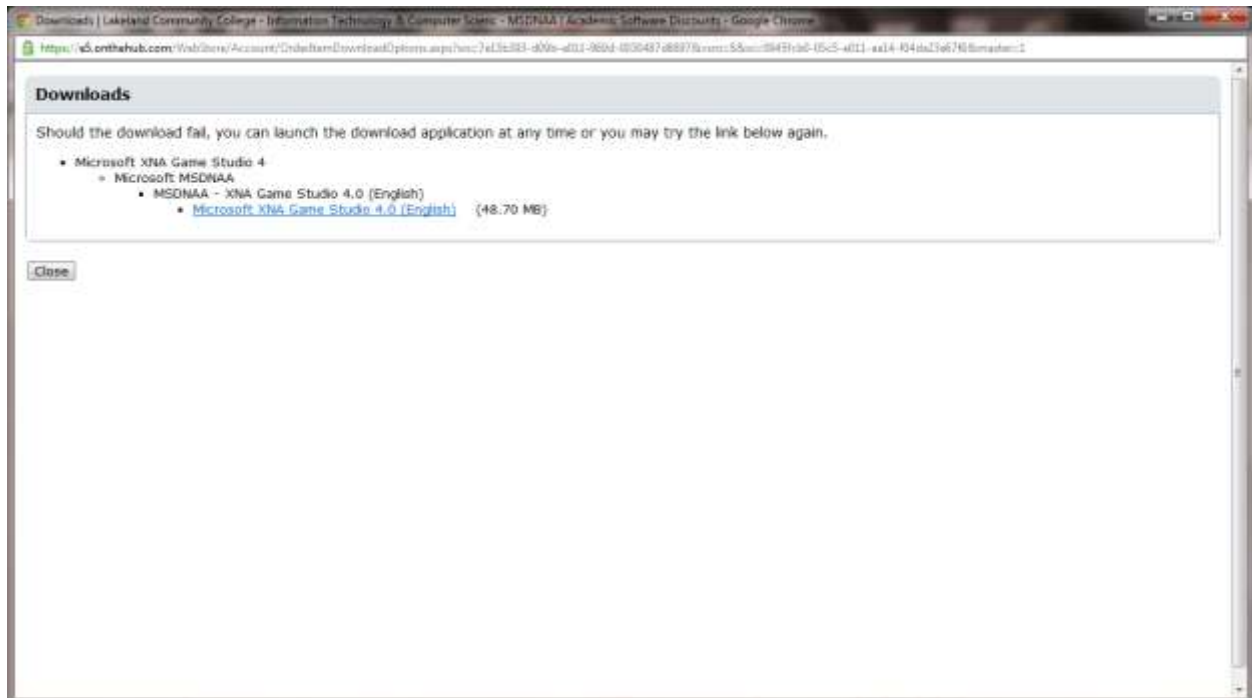

A "Continue Shopping" button is located below the items section.

At the bottom of the page, there are logos for "VeriSign Trusted" and "Powered by e-academy". Social media icons for Facebook, Twitter, and YouTube are also present.

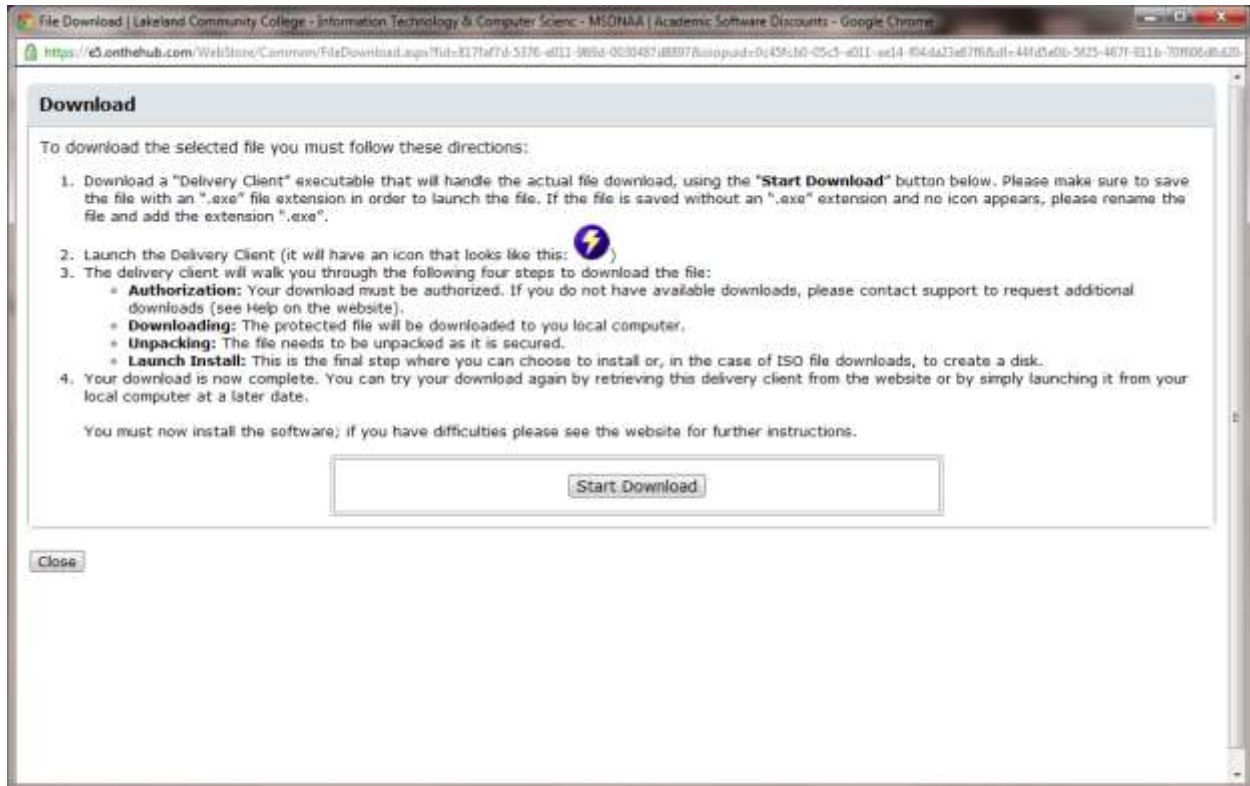

8. After you "Proceed with Order" you should get an email something like so:

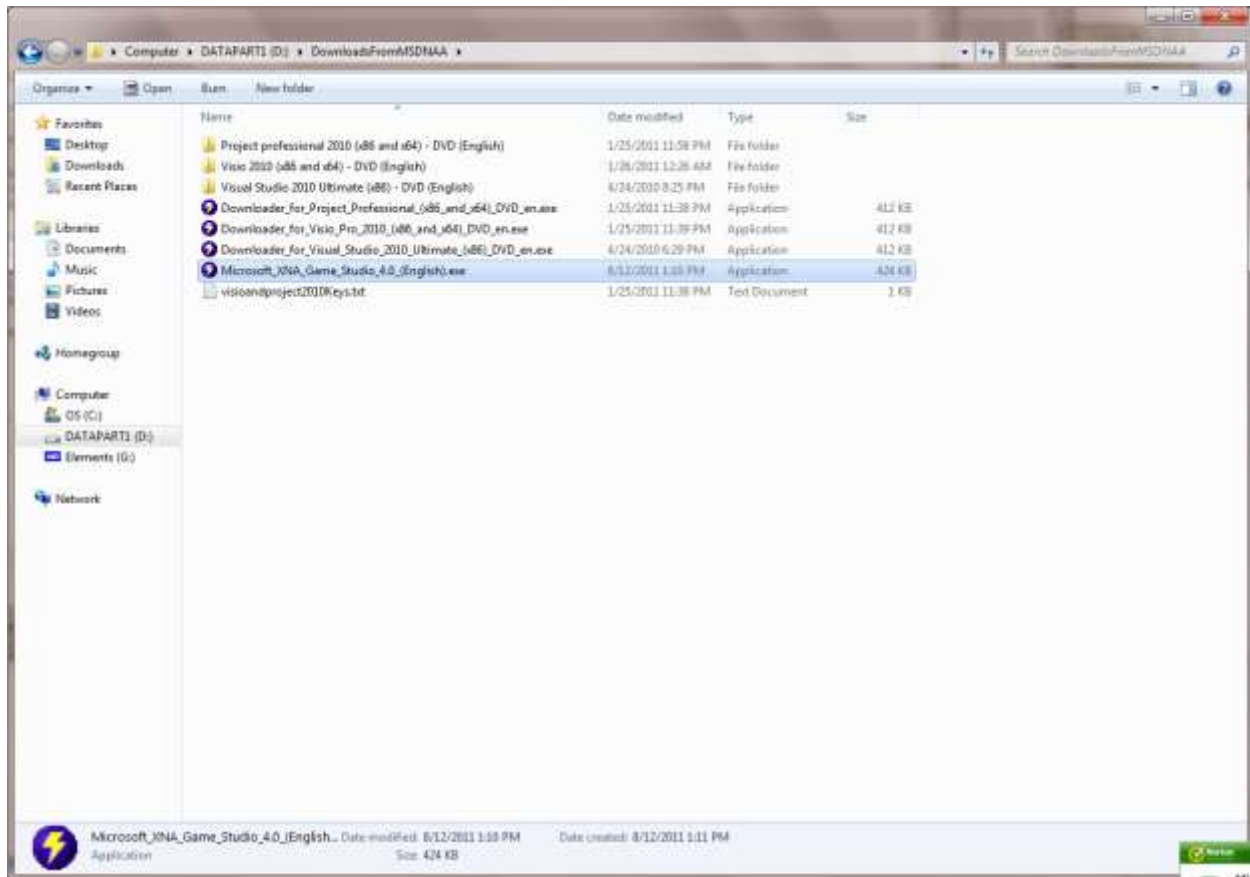

9. If you are impatient, click on the name of the software in step 6, and you will get this pop-up window:

10. Begin the download process. You first get a small exe file:

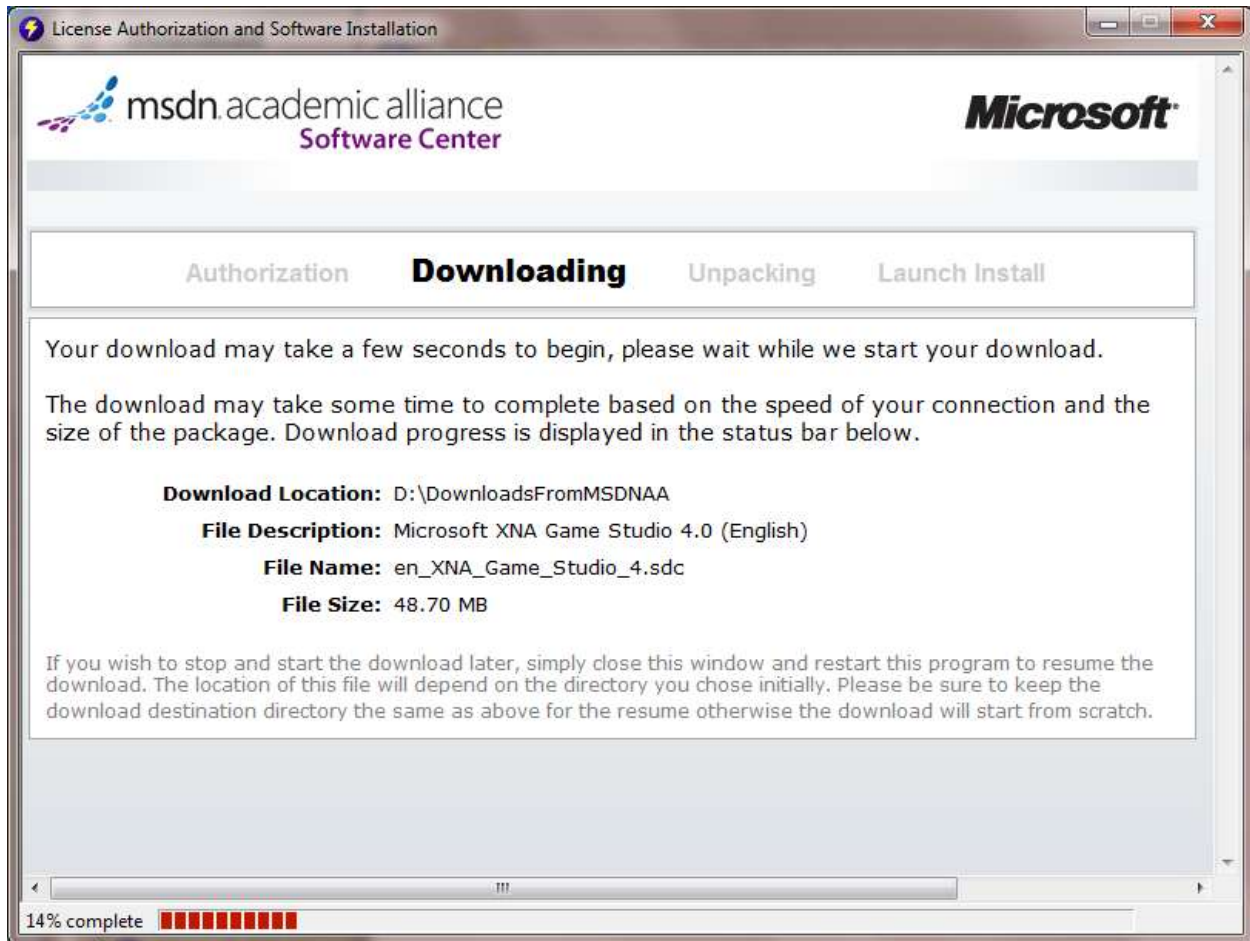

11. Save the exe file someplace where you can find it again. Double click on that file to start the download of the actual application:

12. You may get a security warning.

13. And you are off... downloading the disk image. Once the disk image is downloaded, you MUST burn the image to a CD or DVD using disk imaging software.

Roxio works well as do many other products. No help will be provided as there are simply too many variables to solve your particular issue.
