

Civil Engineering Technology Student Association (CETSA)

CETSA was established in 1995 by students in the Civil Engineering Technology program to promote education & community awareness, and to be a resource for students while in school and after graduation. Lakeland Community College offers all LCC students the opportunity to become members of CETSA. We are a Student Chapter of, and are closely affiliated with the Northeast Ohio Chapter of the American Institute of Constructors (AIC).

We offer:

[See our link on Lakeland's Facebook site!](#)

- Monthly meetings
- Field trips
- Networking with industry professionals
- Fundraisers (to assist students, finance field trips and outings)
- Informal book exchange
- Tutoring services
- Scholarships through AIC

Who can join?

- Any student enrolled at LCC
- Alumni of the CET program

Meetings are held monthly throughout the school year in E114. Topics of discussion and speakers are announced prior to the meeting.

There are no dues and 10 active members have their annual student membership dues paid to the American Institute of Constructors.

If you have any questions, need an application form or wish to receive further information, please contact Larry Curry or any CETSA officer. We look forward to hearing from you!

President

Claudia Marovic (cmarovic@yahoo.com)

Vice President

Brendan Francis (bfrancis6@mail.lakelandcc.edu)

Treasurer
