Applied Studies Division

Radiologic Technology

- Associate of Applied Science Degree in Radiologic Technology
- Computed Tomography Certificate
- Magnetic Resonance Imaging Certificate

Opportunity starts HERE

Radiologic Technology

A rewarding career in medicine and science await those who choose radiologic technology as a profession. Radiographers use x-radiation to produce images of tissues, organs, bones and vessels of the human body. They accurately position the body part of the patient between the X-ray tube and image receptor and apply the amount of radiation necessary to safely produce a quality diagnostic image. These images are then used by radiologists, who are physicians, to diagnose or rule out injury or disease.

Career Opportunities
There are abundant career opportunities for radiologic technologists, as medical imaging is one of the fastest-growing areas of health care today. The Bureau of Labor Statistics predicts a faster than average growth rate through 2024. Radiographers can find job openings in hospitals, specialized imaging centers, urgent care clinics, private physician offices, industry, or civil service/public health centers. Advances in machinery and technology have provided career paths for radiographers that were nonexistent 20 years ago. Radiographers can further their careers by specializing in specific imaging techniques and obtaining additional certifications in areas such as computed tomography, magnetic resonance imaging and mammography. A well-planned education is the key to success. The role of the radiologic technologist will continue to expand as they make a significant impact in medical science.

Lakeland’s Program
Extensive coursework in imaging and radiographic procedures, plus five semesters of clinical experience, prepares students to be competent, entry-level radiographers. They have the knowledge and technical skills to properly produce and evaluate radiographic images of the body, and the necessary interpersonal skills to comfortably interact with patients and other members of the health care team. Students also learn to recognize and respond to emergency patient conditions, apply principles of radiation protection, and exercise independent judgment and discretion in performing procedures.
Graduates of the program can further their education with additional courses in computed tomography (CT) and magnetic resonance imaging (MRI) offered by the college.

Lakeland’s radiologic technology program is fully accredited by the Joint Review Committee on Education in Radiologic Technology.

Joint Review Committee on Education in Radiologic Technology
20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182
312.704.5300

The Lakeland Advantage
• Graduates are eligible to apply for examination by the American Registry of Radiologic Technologists.
• National board exam scores of Lakeland students are at or above the national average.
• The program provides 1,500 hours of clinical experience in radiology departments.
• This is a two-year program leading to an Associate of Applied Science degree.

Quality Education
Lakeland prepares you for a high-demand career or for transfer to a four-year college or university. Professors at Lakeland are experts in their fields with real-world experience. Small class sizes allow for personalized attention.

Affordable Tuition
Save thousands on your college education. Lakeland’s tuition is about one-third the cost of most four-year schools. Financial assistance is available, including federal and state grants, scholarships, loans, and work study employment.

Convenience
Lakeland offers convenient day, evening and weekend class times, and a growing number of online courses. The main campus in Kirtland is only 20 miles northeast of Cleveland. Classes are also offered in Madison.

Focus on Students
Lakeland offers a variety of student services to help you succeed, such as counseling, tutoring, wireless computer labs, career services, free parking, and affordable child care.

Health Program
Admission Requirements
Students must meet specific admission requirements for this program. Listed below are requirements for admission to the Radiologic Technology Program:

OPTION 1: High School Option
This option is for current high school seniors or high school graduates who apply to the program within two years of high school graduation. Complete college application(s).

- Composite score of 21 or higher on the American College Test (ACT) or combined score of 1400 on the Scholastic Aptitude Test (SAT).
- Place into MATH 1330 Statistics for the Health Sciences or higher or pass MATH 0850 Beginning Algebra.
- Complete high school algebra, chemistry, and biology with a “C” grade or higher.
- An overall high school GPA of 2.5 on a 4.0 scale or equivalent.
- Meet with a counselor to review program prerequisites and requirements.
- Complete an observation day in a radiology department.

Upon successful completion of the above criteria, the applicant will be admitted into the program. Students must complete HLTH 1215 (Medical Terminology for Health Professionals) with a “C” grade or higher prior to enrolling in their first health technology course.

OPTION 2: College Option
This option is for students who do not qualify for admission under Option 1.

- Complete college application(s).
- Submit high school transcript as well as any college transcript(s).
- Successful passing score on the required program pre-admission test.
- Meet with a counselor to review program prerequisites and requirements.
- The following courses, or equivalent courses at other regionally accredited colleges, must be completed with a “C” or higher and have a minimum cumulative GPA of 2.5 or higher.
  - HLTH 1215 Medical Terminology for Health Professionals
  - BIOL 2210 Anatomy & Physiology I
- Complete an observation day in a radiology department.

NOTE: Students must meet one of these requirements to take BIOL 2210 with a "C" or higher:
1. High school biology within last five years and high school chemistry.
2. High school biology within last five years and CHEM 1100 Elementary Chemistry.

Students are required to take the Math Placement Test and be placed into MATH 1330 or complete MATH 0850 with a "C" grade or higher.

OPTION 3: Advanced Education Option
Students pursuing this option must have an Associate of Applied Science Degree in Nursing or Allied Health, Bachelor of Science Degree in a natural science, or an Associate of Science Degree to be waived from the preadmission testing. All other Option 2 requirements apply.

Curriculum and program requirements are subject to change. Find the most up-to-date information in the college catalog, available on the website at lakelandcc.edu.
