Quality Education
• 132 degree and certificate programs
• Small classes taught by dedicated faculty with real world experience

Credits Transfer
• Credits transfer easily to four-year colleges and universities
• The Holden University Center of Lakeland Community College gives you convenient access to complete a bachelor’s or graduate degree from a variety of leading colleges and universities - right here in Lake County!

Affordable Tuition
• Save thousands on your college education
• Lakeland’s tuition is about one-third the cost of most four-year schools
• Financial aid is available to those who qualify

Flexible Scheduling
• Convenient locations in Kirtland and Madison
• Day, evening, weekend, online and accelerated classes

Associate of Technical Studies Degree in Health Technologies

The Associate of Technical Studies (ATS) degree program is designed to accommodate associate degree candidates whose careers and career preparation lie in fields of concentration other than those offered by Lakeland. It permits students to have college credit awarded for occupationally related education and training which may have been obtained outside the traditional college sector. Admission to Associate of Technical Studies degree candidacy is by application. Students interested in any ATS program should contact the ATS Counselor in the Counseling and Advising Center.

Degree programs exist in the following areas:

Nuclear Medicine
This is a cooperative program with the Nuclear Medicine Institute (NMI) at the University of Findlay, Findlay, Ohio. Students complete a core curriculum at Lakeland prior to acceptance at NMI.

Radiologic Technology
This program is available to students who have completed a two-year hospital based radiologic technology program accredited by the Joint Review Committee on Education in Radiologic Technology. Applicants to the program must be certified by the American Registry of Radiologic Technologists.

Surgical Technology

Surgical technologists are integral members of the surgical team, working closely with surgeons, anesthesiologists, registered nurses, and other surgical personnel in delivering patient care before, during and after surgery. Students receive off-site clinical training at top area healthcare organizations and hands-on experience in the college’s state-of-the-art simulated surgical lab. Lakeland’s program is accredited by the Commission on Accreditation of Allied Health Education Programs. Upon graduation, students take the certification examination.

Commission on Accreditation of Allied Health Education Programs and ARC/STSA
6 W. Dry Creek Circle • Suite 110 • Littleton, CO 80120 • 303.694.9262

Respiratory Therapy

Respiratory therapy involves preventive, diagnostic, rehabilitative, and intensive-care therapy for patients with current or potential cardiopulmonary problems. Respiratory therapists work in a variety of clinical settings treating patients with heart and lung diseases. Students work with registered respiratory therapists in some of the area’s top healthcare facilities. Lakeland’s program is accredited by the Committee on Accreditation for Respiratory Care. Successful completion of the two-year program qualifies the graduate for two national board exams.

Lakeland’s health technologies fields offer a variety of associate degrees and certificates that lead to exciting careers in healthcare and science fields. The demand for qualified workers in healthcare and science-related jobs is greater than ever. Employers actively recruit Lakeland graduates because of the college’s reputation for quality health and science education. Candidates for admission to health programs should review the college catalog for information regarding admission requirements, and meet with a college counselor and admissions representative.

**Degree Programs**

**Health Information Management Technology**

Health information management technology is a profession that focuses on healthcare data and the management of healthcare information resources, including the Electronic Health Record. Health information technologists work with medical records and statistical, code medical data, maintain health record systems, and control usage and release of health information. Lakeland’s program is accredited by the Commission on Accreditation for Health Informatics and Information Management (CAHIIM)*.

* Commission of Accreditation for Health Informatics and Information Management (CAHIIM)*

**Histotechnology**

A histotechnician is an individual who is trained in the preparation and staining of tissue slides for microscopic examination and disease diagnosis by the pathologist. Histotechnicians may be employed in a variety of areas, such as hospitals, clinics, doctors’ offices, research, veterinary pathology, and forensic pathology. Histotechnicians may preserve organs for later examination and perform enzyme immunohistochemistry techniques. Histotechnicians may also assist the pathologist in the preparation of frozen tissue sections which are used to provide rapid diagnosis. Lakeland’s program is accredited by the National Accrediting Agency for Clinical Laboratories (NCA).

* National Accrediting Agency for Clinical Laboratories (NCA)*

**Biotechnology Science**

Biotechnology is the use of organisms, cells, or their components to create products or solve problems. The biotechnology science program prepares students for entry-level laboratory technician positions in research and industrial laboratories engaged in biotechnology. Graduates may choose career paths in medical, pharmaceutical, agricultural, environmental, or forensic science industries as well as in health care research. In addition to classroom and laboratory instruction, students complete internships at leading biomedical research or industrial facilities. Numerous articulation agreements lead to an easy transition to a four-year degree.

**Dental Hygiene**

Dental hygienists are licensed members of the dental health team dedicated to helping patients maintain good oral health and prevent diseases and disorders. Students receive more than 700 hours of hands-on training working with patients in the college’s state-of-the-art Dental Hygiene Science clinic. Lakeland’s program is accredited by the Commission on Dental Accreditation of the American Dental Association*. Upon satisfactory completion of the Dental Hygiene National Board Examination, North East Regional Board Examination, and the Ohio Laws Test, graduates are eligible to apply for an Ohio Dental Hygiene License.

* Commission on Dental Accreditation - American Dental Association

**Health Information Management Technology**

Health information management technology is a profession that focuses on healthcare data and the management of healthcare information resources, including the Electronic Health Record.
