MEDICAL LABORATORY
TECHNOLOGY

Medical laboratory technicians:

As a medical laboratory technician, you'll perform a wide variety of tests and laboratory procedures that require a high level of skill.

On the job, you will:

- » Analyze blood, tissues and fluids in the human body by using precision instruments such as microscopes and automated analyzers.
- » Assist with complicated chemical, microscopic and bacteriological tests for blood cholesterol level, presence of diseases, presence of bacteria, parasites or other microorganisms.
- » Have knowledge of collecting blood samples by venipuncture and skin puncture.

How long does it take to complete this program and be job-ready?

- » 65 credits (approximately 2 years).
- » Program starts fall semester of each year.
- » Part-time program available.
- » Many students might be able to start working after their first semester.

Credential

Lakeland's medical laboratory graduates are eligible to take the national certification exam to become a medical lab technician, known as a MLT.

How to Start

Contact the program director for details to start in the next session.
